ABOUT US

S&A Auto Body History

S&A CLIENTS

Our shop is equipped to help our clients maintain their automotive investment. When a vehicle is damaged in a collision, structural integrity can be compromised. "Hidden damage" can later manifest itself in the form of excessive tire wear, and suspension and handling problems. To return your vehicle to it's original and safe condition, S&A Auto Body utilizes the best methods executed by certified technicians.

Currently, S&A has established relationships with reputable clients such as U-Haul International. We also pride ourselves in being able to offer competitive matching rates to meet your company needs/requirements. We thank you for the opportunity of being able to work with your firm and look forward to continue providing our high standard craftsmanship along with excellent service in the immediate future.

Sincerely,
Saul Sanchez
